

Thank you for your interest in ordering an ad for the yearbook.

The following ad examples are options for selecting a layout design.

Keep in mind, the examples below are at a low resolution quality and are for viewing purposes only, to help give you an idea of the options available to you.

The yearbook ads are being produced by Lifetouch so they will be consistent with the look and feel of the yearbook.

Please note: (In each layout A, B & C)

- Boxes and circles shown can be used for photos or word copy.
- Text areas (shown in black print) are examples of where you can add messages under or next to the photo boxes and/or circles.
- Disregard the dark Red boxes located inside the photo boxes and circles, as they are there for the designer and could not be removed on the templates
- Boxes or circles from any of the options can be removed to allow for increasing the size of one of your photos (or if you just prefer less of them)
- Color backgrounds will be chosen by the designer based on the photos submitted but you may also specify a preference
- Lifetouch has a large library of clip art that you may request the designer to add next to a photo or message (ex. football, basketball, ballet slippers, pom-pom, etc.)

We ask that if you have specific photos you would like matched with a certain box or circle as well as any other instructions or requests, that you clearly indicate this on your form or when you email your photos to [yearbookrobertsville@gmail.com](mailto:yearbookrobertsville@gmail.com)

*Our Lifetouch designer will not be able to make major modifications to these templates but will try to accommodate your requests as much as possible or within reason.*

**Yearbook ad deadline is Friday, April 5, 2019**
