

Thank you for your interest in ordering an ad for the yearbook.

The following ad examples are the layout designs for Quarter and Business Card size ads.

Keep in mind, the examples below are at a low resolution quality and are for viewing purposes only, to help give you an idea of the options available to you.

The yearbook ads are being produced by Lifetouch so they will be consistent with the look and feel of the yearbook.

Please note: (for each layout H or I)

- Boxes shown in each ad example will be used for your photo.
- Text areas for your message (shown in black print) are located below or adjacent to photo boxes.
- Please be mindful of space. These ads are smaller units, therefore, your message should be brief, not too lengthy somewhere between 3-4 sentences/35-70 words (depending on size).
- Disregard the dark Red boxes located inside the photo boxes, as they are there for the designer and could not be removed on the templates
- If you choose not to use the entire space for your photo, color backgrounds will be chosen by the designer based on the photos submitted but you may also specify a preference
- Lifetouch has a large library of clip art that you may request the designer to add next to a photo or message (ex. football, basketball, ballet slippers, pom-pom, etc.)

We ask that if you have any requests or instructions, that you clearly indicate this on your form or when you email your photos to yearbookrobertsville@gmail.com

Our Lifetouch designer will not be able to make major modifications to these templates but will try to accommodate your requests as much as possible or within reason.

Yearbook ad deadline is Friday, April 5, 2019
