

*“We embrace what makes us unique and celebrate what we have in common”*

**Join your fellow Greyhounds as we celebrate cultural diversity in our community.**

**Here are a few ideas to get started:**

- Get the whole family involved. Does your Grandma make a recipe that the whole family enjoys? Is there a special heirloom that’s been in your family? Tell us the story behind it.
- Do you have relatives from all over the world? Create a collage of “postcards” and tell us a fun fact about each country.
- Create a family crest. Ask your family what pieces of your heritage are important to preserve or what are some things that make you unique as a family?
- Do you speak another language? Can you share with us some simple phrases?
- Have you and your family traveled to another country? What are some things that are the same and what are some things that are different?

**A few details about the event:**

- The Fair will run from 5:30-7:00pm. Please feel free to arrive 15-30 minutes beforehand to check in and set up in the BIG GYM.

- In addition, the Family Service Night committee will be helping to create “snuggle packs” to be donated to Refugee One. We will be attaching a note and a little snack to gently used stuffed animals. When little ones come to Refugee One upon their arrival to America, they will receive a “snuggle pack”.
- Table assignments and a chart will be posted on the front doors and gym doors. Please look for your name and number on Project list. It will be sorted by grade - then look for your number on the chart.
- There are 2 projects per table, please only use half a table when setting up your project. If you require more space, please let us know beforehand. (Groups of 2 or more will be given a full table)
- If you need access to an outlet, please let us know beforehand and we will put your name on a table closest to one.
- If your project involves food to pass out - you must pass the food out to adults only with an explanation of how it was made. The adults can then determine if they want to allow their children to eat it.
