Dear Carroll County Board of Education and Superintendent McCabe,

We appreciate the thoughtful discussion at the BOE work session on September 7. Thank you for listening to the various voices in the community urging you to slow down the Southern Area Redistricting process and deciding to wait to make a decision until more information can be obtained. Our community agrees with a holistic approach. Learning more about the PreK requirements in the Blueprint and completing feasibility studies are important steps in collecting the information needed to make an informed decision. Thank you for valuing the input from our community.

Sincerely,  
Linton Springs Elementary PTA
