

A GREEN TEAM CHALLENGE!

The Linton Springs Green team has entered a challenge to win a TREX bench made entirely of recycled plastics! The program runs from Nov 15th - April 15th. Please consider having your child bring the following plastic film items listed below to school to be weighed and counted towards our goal.

There will be a collection classroom for each grade.

Thank you for helping promote the importance of recycling plastic film and working towards winning a bench for the school.

The Green Team Committee

Trex Recyclables

What can be recycled?

All plastic must be clean, dry and free of food residue.
